*What if there is a place where  
you can get every beauty service  
done in one place?*

*What if we said this was located  
in an intimate, home-like setting  
with the friendliness of a  
beautiful suburb?*

*No matter what your beauty  
needs are, you can find them all  
at OG Beauty Spa.*

# OG Beauty Spa: A One-Stop-Shop for Beauty Treatment

OG Beauty Spa is a one-stop-shop for all beauty treatments, founded in 2021, to serve a clientele that appreciates the value of beauty, leisure and the wellness of the body and life. OG Beauty Spa specialises in Facial Treatments, Massages, Hands & Feet Treatments, Manicure & Pedicures, and Waxing.

OG Beauty Spa is hosted at the Chancellors Court Guesthouse Lodge in Brooklyn, Pretoria, a serene environment filled with beauty and soothing features, that blend well with beauty treatments.

OG Beauty Spa is a wholly black-owned business, an entrepreneur in several business sectors, and CEO of a private financial entity; possessing a diverse educational portfolio that includes Engineering and Business Management.

The main objective of OG Beauty Spa is to provide a tranquil, relaxed environment in which clients can have their beauty needs attended to in an intimate setting whilst enjoying delicious refreshments (for example: coffee or tea) in the company of friends or family.

There are some particular treatments that deserve special mention because they can be found nowhere else in Pretoria.

# Our Team: Beauty Therapists, and Specialists.

OG Beauty Spa has a dedicated team of Beauty Therapists, and Specialists that serve its clients, delivering a world-class beauty treatment in massages, manicures, pedicures, hand and feet treatments, and giving relevant maintenance advice to clients.

# Facial Treatments: Beautification begins with the Face.

OG Beauty Spa specialises in facial treatments that include Facial Deep Cleanse and Treatment, Relaxing and Facial Rejuvenating. OG Beauty Spa also specialises in anti-aging treatments. The Lift-&-Tighten Facial and the Microdermabrasion Facial are two examples of how this is achieved.

# Massages:

## Recreating comfort in the Body and inner being.

OG Beauty Spa specialises in body massages that include Indian Massage, Swedish Full Body, Back, Neck & Shoulder, Hot Stone Full Body, and Scrub. Other massages such as Sports massages, and massages for children, are also offered at the Spa to cater for the whole family.

# Hand & Feet Treatments: A Revitalising, Relaxing, and Refreshing massage

OG Beauty Spa specialises in hand and feet treatments with exfoliation, giving relaxing massage, a warm soothing paraffin dip. They are wonderful for men too. As your hands rest in the hand bath, the warmed paraffin will seep into the pores of the skin to release toxins.

# Manicures & Pedicures: Special Treatment for the fingers, toes, and nails

OG Beauty Spa specialises in manicures and pedicures to improve blood flow, which is important in reducing cellulite, tightening skin, and strengthening muscles — all of which can improve the visible appearance of your hands and feet.

# Waxing:

## For confidence, and comfort of the feet.

OG Beauty Spa specialises in Waxing, including Underarm Wax, Half and Full Leg Wax, Bikini Wax, and Brazilian Wax. Waxing removes the entire hair, root and all, from the follicle. Your skin naturally hardens and thickens over the area that was waxed so it is important to keep that area gently exfoliated.
